Snowy Plover Protection Program - Scott Creek Beach. Work will resume with this program beginning March 1, 2005 with the installation of the seasonal protection fencing and signage.

April 11, 2005 – Agenda

Parks, Buildings, and Grounds Maintenance

Staff are preparing for work on the North Coast this month. Supplies were purchased for Snowy Plover Protection Program and some clean up of the 'dune' area was completed.

Status Report on Current Projects

Scott Creek Beach. Following the submittal of the final forms to Caltrans to release the grant retention, Caltrans has requested additional back-up information regarding the deviation from the project DBA goal. Staff is working on the additional submittals to Caltrans.

Snowy Plover Protection Program - Scott Creek Beach. On Friday, March 4, 2005, Parks staff met with representatives from the Point Reyes Bird Observatory on the scheduling and operating procedures for the 2005 Snowy Plover breeding season. It appears that the seasonal nesting habitat fencing will not be installed until April. The P.R.B.O. will determine the exact date for installation of the fence and seasonal signage installation.

May 9, 2005 – Agenda

Status Report on Current Projects

Scott Creek Beach. Following the submittal of the final forms to Caltrans to release the grant retention, Caltrans has requested additional back-up information regarding the Final Detailed Estimate and deviation from the project DBA goal. Staff has completed the additional back up information for the Detailed Estimate and is working on the DBA information package.

Snowy Plover Protection Program - Scott Creek Beach. On Friday, March 4, 2005, Parks staff met with representatives from the Point Reyes Bird Observatory on the scheduling and operating procedures for the 2005 Snowy Plover breeding season. P.R.B.O. has given the go ahead to install the seasonal habitat fencing. The fencing will be installed by Maintenance staff during the week of April 11th-15th. Maintenance staff have also completed the removal of ice plant within the Snowy Plover breeding area.

June 13, 2005 – Agenda

Parks, Buildings, and Grounds Maintenance

North County Maintenance staff assisted with the placement of three snowy plover enclosures and the installation of dune protection fencing at Scott Creek Beach.

Status Report on Current Projects

Scott Creek Beach. Staff has submitted the Final Detailed Estimate, DBE information and invoice to Caltrans. This information should close out the project, as well as allow for the release of the retention payment.

Snowy Plover Protection Program - Scott Creek Beach. The breeding season has started off with two active nests and one abandoned nest. The two active nests have had enclosures erected around them.

July 2005 – No Meeting

August 8, 2005 – Agenda

Parks, Buildings, and Grounds Maintenance

North County Maintenance staff repaired the dune protection fence at Scott Creek Beach.

Status Report on Current Projects

Scott Creek Beach. Caltrans has accepted the final grant close-out package and has released the final payment. This project is now complete.

Snowy Plover Protection Program - Scott Creek Beach. There has been no change in the nesting activity since the last report. However, Staff have been busy maintaining the seasonal habitat fencing due to tidal and beach user activity.

September 12, 2005 – Agenda
Status Report on Current Projects

Snowy Plover Protection Program - Scott Creek Beach. There has been no change in the nesting activity since the last report. However, Staff have been busy maintaining the seasonal habitat fencing due to tidal and beach user activity.

October 12, 2005 – Agenda
Status Report on Current Projects

Snowy Plover Protection Program - Scott Creek Beach. A recent survey of the area in late August by the Point Reyes Bird Observatory (PRBO) has identified late season nesting activity. Therefore, staff will not be removing the seasonal protection fencing until notified by PRBO.
