April 14, 2008 – Agenda
Maintenance Division – Status Report

March marks the beginning of Snowy Plover season on Scott Creek Beach. Staff installed the dune protective fencing and signs this month. Staff will be ready to install protective “enclosures” once the birds begin to lay eggs on the dune area.

May 12, 2008 – Agenda
Maintenance Division – Status Report

Staff installed some new signs on the North Coast related to Snowy Plover protection.

June 9, 2008 – Agenda
Maintenance Division – Status Report

Staff is continuing to work on the North Coast related to Snowy Plover protection. Three nesting birds were identified this month and enclosures were installed.
