

January 2018 – No Meeting No Division Reports

February 6, 2018 – Agenda Volunteer Program Status Report

Scott Creek Beach - The Tau Kappa Epsilon fraternity volunteered on Sunday, January 14th to remove over 3 feet of sand that had accumulated on an ADA ramp and platform. Over 30 young men volunteered tirelessly from 9:00 am – 2:00 pm shoveling and hauling sand. The fraternity made a significant dent in the project and are scheduled to come back on Sunday, January 28th to finish the job. Thanks to their volunteer efforts, community members will now be able to access the ramp and platform for viewing.

Also at the Scott Creek Beach we have a new volunteer who will be organizing beach clean-up days and helping with keeping the bulletin board up to date and free of graffiti.

April 2, 2018 – Agenda Maintenance Section Status Report UCSC Fraternity adopted Scott Creek Beach Volunteer Program Status Report

We have our first park that has been adopted! The Tau Kappa Epsilon fraternity have adopted Scott Creek Beach. The adoption commitment is thus: To finish removing the sand from the ADA platform and surrounding area, and then routinely maintain the walkway and platform to keep it accessible. They will also routinely work at keeping the park graffiti free, maintaining the bulletin board, picking up trash and removing invasive ice plant from the dunes so that the Snowy Plover will thrive. After the fraternity spent two mornings (9:00 a.m.– 1:00 p.m.) at Scott Creek Beach, shoveling and hauling sand, they felt compelled to commit to the park and adopt it.

April 2, 2018 Minutes Commissioners Reprt

Sibille – It was exciting to see that Tau Kappa Epsilon from UCSC felt compelled to formally adopt and regularly maintain Scott Creek Beach after spending time volunteering there.

Volunteer Program Status Report

Scott Creek Beach - The UCSC fraternity has started back with their efforts to care for Scott Creek Beach. Along with trying to keep the platform free of sand, they are also hoping to build a wall, below the platform railing, to help slow down the sand from accumulating so quickly. Linda Brodman, president of the California Native Plant Society(CNPS) has organized a volunteer day at Scott Creek Beach to remove Ice Plant from the dunes.
